We are grateful to our friends for their many gifts that help us to achieve our mission to improve public health, promote individual well-being, and eliminate health disparities across North Carolina and around the world.

Your gifts help us bring about sustainable, positive changes in health by:

- Providing an outstanding program of evidence-based research, teaching and service;
- Discovering, testing and disseminating solutions to health threats and problems;
- Translating research into effective practices and sound policies; and
- Educating the next generation of public health leaders.
