*A Doctor's Account of Caring for Women Before and After Roe v. Wade*

Wednesday,  
October 16<sup>th</sup> at 6:30pm  
at \*The St. Julien Hotel\*  
(900 Walnut St.)

A vital component of women's health care, the crisis over abortion is not new. Yet the reversal of Roe v. Wade and the steady accumulation of power by America's right wing has put the issue at a level of urgency and national prominence not seen since the days before legalization. In stories from the front lines—from protecting patients and staff from protesters' attacks to the dangers to women of restricted access to abortion services, and the pertinent findings of his remote research in Latin America—*Abortion in the Age of Unreason* exposes the needs of women and the U. S. national interest.
